

EZcarlift™

THE HOME MECHANIC'S CAR LIFT

The car lift that ANYONE can use AND store.

**PORTABLE
ON DEMAND
CAR LIFT**

Everyone could use a lift, but not everyone has the space.
EZcarlift™ has solved this problem.

ROBUST

Lifts 4,400 lbs

SAFE

Stability at all heights

FAST

Rises 26" in 90 seconds.

EASY

Powered by corded drill

PORTABLE

Fits in your cars boot

ACCESS

Unobstructed to all areas

VERSATILE

Different attachments will accommodate all of your boys-toys from a sporty Corvette to a small Mini; from a Triumph Spitfire to the muscular GT500.

- EZcarlift is versatile, compact and portable, weighing ONLY 152lbs.
- The simple mechanical design and few parts make it reliable.
- Easily assembled with common spanner or socket, only 8 fasteners.
- Powered by a common electric hand drill, this low profile lift can raise a 4,400lb car to 26 inches in as little as 90 seconds!

EZcarlift™ was developed specifically for the home mechanic. The simple operation of the common floor jack and unobstructed access of jack stands were used as a model for the design. The true portability of the EZcarlift™ distinguishes it from all other lifts.

The lift is compact and designed for tight spaces, such as your garage. Customised to your vehicle, the lift does not exceed the footprint of your vehicle, leaving full access from all sides to all areas of the underbody.

EZCARLIFT™ SPECIFICATION

Lifting Capacity	4,400lbs	2 Tons							
Lifting Height	26 Inches	66cm							
Lifting Intervals	Infinite								
Lifting Mechanism	All Mechanical								
Horizontal Movement	0 Inches								
Power Requirement	8 AMP or higher corded electric hand drill.								
Stowed Height	4 Inches	10cm							
Operating Time	5 to 20 inches (15 to 46cm)	Less than 45 secs							
	Up to 26 inches	Additional 45 secs							
Platform Length	61 Inches	155cm							
Platform Width	10 Inches	25cm							
Lifting Points - Length	Infinite Adjustable from								
	12 to 59 inches	30 to 150cm							
With optional extensions	Up to 71 inches	Up to 180cm							
Lifting Points - Width	Cross Spacers Set - Width Range								
	Our standard cross spacers will accommodate most vehicles). Custom spacers available up on request.	<table border="0"> <tr> <td>xmC34 - 20"-32" (50-81cm)</td> <td>xmC37 - 23"-35" (58-89cm)</td> </tr> <tr> <td>xmC45 - 31"-43" (79-109cm)</td> <td>xm52 - 38"-50" (96-127cm)</td> </tr> <tr> <td>xmC59 - 45"-57" (125-145cm)</td> <td>xm64 - 50"-62" (127-168cm)</td> </tr> <tr> <td>xmC69 - 55"-67" (140-170cm)</td> <td>xm74 - 60"-72" (152-183cm)</td> </tr> </table>	xmC34 - 20"-32" (50-81cm)	xmC37 - 23"-35" (58-89cm)	xmC45 - 31"-43" (79-109cm)	xm52 - 38"-50" (96-127cm)	xmC59 - 45"-57" (125-145cm)	xm64 - 50"-62" (127-168cm)	xmC69 - 55"-67" (140-170cm)
xmC34 - 20"-32" (50-81cm)	xmC37 - 23"-35" (58-89cm)								
xmC45 - 31"-43" (79-109cm)	xm52 - 38"-50" (96-127cm)								
xmC59 - 45"-57" (125-145cm)	xm64 - 50"-62" (127-168cm)								
xmC69 - 55"-67" (140-170cm)	xm74 - 60"-72" (152-183cm)								
Gross Shipping Weight	152lbs or less	Less than 69kg							
Single Ramp Weight	60lbs	27kg							
Required Storage Space	Max 2.8ft ³	0.08m ³							
Warranty	3 Years								

FEATURES

- E** Easy to use, just roll under your vehicle and lift just like your common floor jack!
- Z** Zero horizontal movement during lift, essential for safety in limiting garage space!
- C** Compact. Fits in any garage no matter how small or cluttered it is as long as your car fits in it!
- A** Allows access from all sides to all areas of the underbody with plenty of room to work!
- R** Rugged tubular steel construction provides exceptional stability at all heights!
- L** Lifted via common electric corded hand drill; no need for expensive wiring in your garage!
- I** Infinite lifting heights up to 26" allowing you to adjust vehicle exactly where you want it!
- F** Free standing - no need for expensive anchors or floor preparation!
- T** Transportable - mere 152lbs and 2.8ft³ the lift will fit in most car trunks, all pickup trucks and SUVs.

HOW TO IDENTIFY LUCAS PARTS

At Holden Vintage & Classic we stock a vast range of Lucas parts for classic vehicles. Some are new old stock made by Lucas, for some we have the original Lucas tooling and continue production ourselves, and for some new tooling has been commissioned to ensure continued availability. If you are seeking a replacement for a Lucas part many Lucas products, lamps, light units etc. can be identified from the pictures in this catalogue, but for others the key to identifying what you have is the Lucas Part Number. Taking a switch as an example it will have a five/six/eight figure number stamped or moulded into the part (often very small and may be difficult to read). It may be followed by a letter A/B/C etc. but you can ignore these.

If you look in the appropriate section in this catalogue and you see the same Lucas number being used as our Part No. then you can order with confidence knowing that you will receive the correct new part.

If you cannot find the Lucas Part No. here then we ask you to go to our web site www.holden.co.uk and enter the Lucas Part Number in the top right hand corner and click 'search'. If we have it as a listed part it will come up with a description, picture and price. If you don't find your Lucas part listed here it is worth while making a telephone call as we do have some other Lucas parts, at the moment not listed on our web site. We may also know that there has been a later Lucas Part No. that replaces that of the part you are seeking. Alternatively, you can browse through Electrical/Switches/Ignition and so on to find a suitable Lucas (or other) part for your vehicle.

Supporting classic motoring enthusiasts since 1988.

Can't find what you're looking for?

Please contact our friendly sales team who will be happy to assist you or visit our website.

Our telephone lines are open from Monday – Friday between 8.30am – 5.00pm.
